Discussion:

BRAC Business Initiative Test Companies:

As you may recall, our BBI Test Companies are the small and minority businesses that we track over a one year period in order to identify and document the Fort Meade Region defense contracting environment. During our just completed Phase I, we documented the actions of 20 Test Companies as they traversed 5 separate defense related tracks; NSA, DISA, SAIC, Cyber Core Tech and a large construction company. BBI Phase II will also consist of 20 Test Companies, 10 of which are from Phase I and 10 are new companies from across the region. These Test Companies are the "pathfinders" for our 750 Partner Companies. Over the next year, they are going to report to the BBI Staff and the Partner Companies where the mountains, the valleys, the swamps and the alligators are located in the Fort Meade defense contracting environment.

The roster of BBI Phase II Test Companies starts on the next page.

BRAC Business Initiative Test Companies

September 2010

Company	Contact #1	Contact #2	Capabilities
